E-WASTE

'Eco Changes' represents **KELHOME IMPEX** stance on environmental management and the commitment to continuously strive for the greener tomorrow through cutting-edge global environment technologies and the organization's unique strengths in manufacturing.

We consider minimizing our negative impact on the environment as one of our top management priorities. Our business activities achieve this through technology and action. Supporting these efforts is a culture that encourages each **KELHOME IMPEX** group employee to proactively instigate positive changes and create real improvements in products, systems and services and recycling.

The continuous improvement of our products and services focuses on size and weight reduction, high performance, resource saving and energy efficiency. This is the line with the corporate statement, "**Changes for the Better**" which result reflects our perpetual drive to actively seek out and enact improvement.

'Eco Changes' also represents the efforts to join forces with customers to change the global environment for the better. Our ultimate aim is to improve the quality of people's live while making positive contributions to the environment.

E-WASTE Management Program

Under the new guidelines of the Central Government of India, E-WASTE (Management) Rules 2016 have been notified. **KELHOME IMPEX** as an Extended Producer Responsibility (EPR) stands committed to implement new E-WASTE (Management) Rules 2016 and compliance thereof. E-WASTE has been defined as:

"Waste electrical and electronic equipment, whole or in part discarded as waste by the Consumer or bulk Consumer as well as rejects from their manufacturing, refurbishment and repair processes".

Managing of E-WASTE is most important because it consists of harmful substances which can bring adverse effects to the environment as well as human life. By scientific disposal of E-WASTE we can save our environment and also prevent its potential negative consequences on human health. E-WASTE can also be considered as a resource that contains useful material of economic benefit for recovery of plastics, iron, glass, aluminium, copper and precious metals such as silver, gold, platinum, and palladium and lead, cadmium, mercury etc.

Collection Storage and Disposal of E-WASTE

To facilitate & ease our Customers to dispose of E-WASTE products, Dealers / Distributors / Customers can get all details of company process on collection & disposal of E-WASTE product (i.e Radio sets, Electric cookers, Microwaves, Microwave Oven, Electric fans, Electric kettle, Television sets (Including sets based on (Liquid Crystal Display and Light Emitting Diode technology), Refrigerator, Air-conditioners excluding centralized air conditioning plants, Indoor air purifier, Vacuum

KELHOME IMPEX importer of Radio sets, Electric cookers, Microwaves, Microwave Oven, Electric fans, Electric kettle, Television sets (Including sets based on (Liquid Crystal Display and Light Emitting Diode technology)), Refrigerator, Air-conditioners excluding centralized air conditioning plants, Indoor air purifier, Vacuum cleaners, Products or equipment of Transmitting sound, images or other information by Telecommunications – Bluetooth enabled devices, Electric heating appliances, Iron and other appliances for ironing, mangling and other care of clothing -Dry iron, Iron and other appliances for ironing, mangling and other care of clothing -Steam Iron/Garment Steamer, Electric shaver, Equipment for turning, milling, sanding, grinding, sawing, cutting, shearing, drilling, making holes, punching, folding, bending or similar processing of wood, metal and other materials, Tools for riveting, nailing or screwing or removing rivets, nails, screws or similar uses. For any location within India for further storage & recycling, for this purpose, Customer shall follow the following process:

Place their request on **Toll free number 1800-102-5679** to collect KELHOME IMPEX E-WASTE and against which a request id will be generated to Customer. The Company will not obliged and accede the request of any Customer for collection of other Companies supplier of above mentioned as E-WASTE.

- After generating request id to collect E-Waste, same information will be shared to the company just for information only.
- **E-Waste Recyclers India** shall arrange to collect the E-WASTE from the Customer designated location through its transporter within the schedule time.
- After collection from specified location, **E-Waste Recyclers India** shall store the E-WASTE at its local warehouse and consolidate all E-WASTE for dismantle at its main warehouse through a proper process & system.
- The channelization of E-Waste will be done in sound
- After dismantling, **E-Waste Recyclers India** shall provide the certificate of Recycling & destruction to the Customer for their record.
- M/s E-waste Recyclers India will collect all our E-waste generated from PAN India and dismantle/ recycling the same at their plant at **E-49-50, UPSIDC Industrial Area, 98 KM Stone, NH-2, Kosi Kotwan, Distt. Mathura-281403, Uttar Pradesh** and its Corporate office at **A-46, Okhla Phase -1, New Delhi 110020**.
- M/s E-Waste Recyclers India is having all authorization related e-waste dismantling from HSPCB and having all connects related to Air/Water/Hazardous waste. They have capacity of **667 MT** per annum.
- Keeping in view our sales volume and generation of e-waste as per our future e-waste targets and our expansion plan we have decided to follow these mechanisms in our organization for collection of e-waste.
- M/s E-Waste Recyclers India if any customer wants to handover their old product they can reach us on our Toll Free No. **1800 102 5679**. Our representatives explain them about process of disposal of e-waste and make them aware about nearest drop point. If any customer wants to handover the

e-waste from their door steps we do send either our logistics team or our team to collect the items and channelize the same to our e-waste plant for final processing.

Details of incentive scheme for returning of E-WASTE by consumers/bulk consumers

To keep high and persist the momentum of consumer for disposal of E-WASTE through proper system and further appreciate the initiatives of Consumer / Bulk Consumer to ensure environmentally sound management of E-WASTE, Company will provide a special offer as availability of offer with Company/Authorised Dealer whereby respective Customer shall get a special offer against purchase of **KELHOME IMPEX** supplier of above mentioned products) from authorized Dealers / Distributors / resellers of Company by handing over the letter received from the Company. The Company shall provide the offer coupon in the following manner:

- The Company on receipt of confirmation from E-WASTE recycler towards collection of E-WASTE from Customer location shall deliver the appreciation letter to customer with company incentive offer.
- Customer can get location/ state/ area wise list of Authorized Dealer / Distributors by visiting our website <https://www.kelhome.in/>

In case the Customer intends to exchange the existing E-WASTE EEE (i.e. KELHOME IMPEX supplier of above mentioned products etc.) of company and wish to purchase the new above mentioned products, he / she may get a special offer as per availability with company/our Authorised Dealers/Distributors.

Do's & Dont's of E-WASTE Recycling

Do's	Don'ts
Give the discarded Electronic Equipment only at the authorized collection centers so that the same can be properly recycled	Don't dump the discarded Electronic Equipment in open or in any Land Fill Site as the same will result in contaminating the Soil and the ground water
Tell your neighbours and other persons about the hazards of improper disposal or	Don't dispose of the discarded Electronic Equipment in household bins, Municipal Bins or mix into household Waste stream.

MAKING A WORLD
OF DIFFERENCE

Do's	Don'ts
handling or improper recycling of the Electronic Waste	
Drop the discarded Electronic Equipment only in the bins meant for the Electronic Waste	Don't sell or give your discarded Electronic Equipment to any Trash Dealer or Kabadiwala
Ask the retailer about the Take Back schemes	To minimize our impact on the earth and to protect the environment for future generations return your discarded Electronic Equipment here for safe recycling:
Consult the authorized service centre as to whether the Electronic Equipment can be repaired or not, before discarding the same	Recycling Electronic Equipment helps to save natural finite resources and also reduces the environmental and health risks associated with improper handling/disposing the Electronic Waste
If the unwanted Electronic Equipment still work or can be repaired then consider donating them	The product should not be opened by the User himself/herself, but only by authorized service personnel.

Hazards of improper handling and/or improper recycling of electronic waste

Electronic equipment contains many hazardous metallic contaminants such as lead, cadmium, and beryllium and brominated flame-retardants. The improper handling and/or improper recycling of the Electronic Waste results in these hazardous metals/substances getting released into our eco and biological system, thereby leading to various health hazards.

The Hazardous contents in the electronic equipment include:

- Lead
- Brominated Flame Retardants
- Chromium
- Mercury
- Beryllium
- Cadmium
- Barium

MAKING A WORLD
OF DIFFERENCE

- Carbon Black
- Phosphor

Without safe recycling, most of these toxic components will end up in land fill - poisoning the soil and water.

Under the E-WASTE (Management) Rules, 2016, it is necessary for the E-WASTE to be properly channelized till the stage of its recycling and final disposal. Hence, it is imperative that the electrical and electronic equipment that are rendered useless on account of the

end of its life or any accidental breakage or damage, is disposed of in a manner that is not detrimental to the conservation of the environment and does not cause any health hazard to any living beings. With a view to attain this objective, certain responsibilities have to be borne by all the concerned stakeholders including the producer, dealer, dismantler, recycler and also the consumer, involved in the production, use and disposal of the electronic equipment.

Please be aware that you are a responsible consumer under the E-WASTE rules. Kindly take note of the symbol below which connotes that you should not dump any of the electrical and electronic equipment including air-conditioners in garbage bins, neither should you dispose of the same through any scrap dealers.

There is need to encourage recycling of all useful and valuable material from E-waste so as to conserve the ever depleting natural resources. Recycling end-of-life products is vital if we are to save resources and minimize waste.

Negative consequences of improper disposal of E-WASTE product:

- Oil & Gases which is present in some of E-WASTE like compressor and CRT causes environment pollution.
- Toxic material present in E-WASTE get mixed with earth, air, water etc and causes health issues.
- Burning of rubber & Plastic in open area causes air pollution.
- Bad impact on human being, animal, and other animals.
- Wastage of natural resources.

Distributors / customers are urged to strictly adhere to the guidelines as per E-WASTE rules as any failure or contravention will attract penal action under Environment (Protection) Act 1986, which provides for imprisonment up to 5 years or with fine up to Rs. 1 Lac or both.

MAKING A WORLD
OF DIFFERENCE

This initiative is the step towards a cleaner and greener earth. This move is one of the ways to show that we are concerned and thus we request all our customers to join this movement to make it successful by way of contributing their end-of-life product

The E-WASTE product should be handed over only to authorized recycler for disposal. In this regard, **KELHOME IMPEX** has tied-up with an authorized E-WASTE recycler namely, **E-Waster Recyclers India** for facilitating our customers on PAN India Basis to enable them to dispose of E-WASTE products after its end-of-life. Recycler have agreement with logistics service company name is **TCI EXPRESS LIMITEDs Limited.**

E-waste Management

Introduction:

Electronic waste, or e-waste, is a term for electronic products that have become unwanted, non-working or obsolete, and have essentially reached the end of their useful life.

As per E-waste Rule 2016, the E waste defined as 'electrical and electronic equipment, whole or in part discarded as waste by the consumer or bulk consumer as well as rejects from manufacturing, refurbishment and repair processes.

E-waste contains many valuable, recoverable materials such as aluminum, copper, gold, silver, plastics, and ferrous metals. In order to conserve natural resources and the energy needed to produce new electronic equipment from virgin resources, electronic equipment can be refurbished, reused, and recycled instead of being land-filled.

E-waste also contains toxic and hazardous materials including mercury, lead, cadmium, beryllium, chromium, and chemical flame retardants, which have the potential to leach into our soil and water.

Benefits of E-waste Recycling

- **Electronics Recycling Conserves Natural Resources**

There are many materials that can be recovered from old electronics. These materials can be used to make new products, thus reducing the need to mine for new raw materials. For instance, various metals can be recovered from computer circuit boards and other electronics, and the plastics and glass found in computer monitors and televisions can be recycled.

- **Electronics Recycling Supports the Community**

Donating your old electronics plays an important role in the provision of refurbished products such as computers and mobile phones, which can be of great help to low-income families, schools, and not-for-profit organizations. It also helps individuals gain access to technology that they could not have otherwise afforded.

- **Electronics Recycling Creates Employment Locally**

Considering that around 90 percent of electronic equipment is recyclable, electronics recycling can play a significant role in creating employment. This is because new firms dealing with electronics recycling will form and existing firms will look to employ more people to recover recyclable materials. This can be triggered by the increase in the demand for electronics recycling.

- **Electronics Recycling Helps Protect Public Health and the Environment**

Many electronics have toxic or hazardous materials such as mercury and lead, which can be harmful to the environment if disposed of in trashcans. Reusing and recycling electronics safely helps in keeping the hazardous materials from harming humans or the environment. For example, televisions and computer monitors are hazardous since they have lead in them. Printed circuit boards contain harmful materials such as cadmium, lead, mercury and chromium. Also, batteries in computers and other electronics may contain hazardous materials such as cadmium, mercury and lead.

Instead of keeping old electronics in the house or dumping them in landfills, recycling or reusing them is an appropriate option that should be supported by individuals and organizations. Considering the benefits of electronics recycling, it is very important that people in various parts around the world embrace this concept.

- **Creates Jobs:** E-waste recycling creates new jobs for professional recyclers and creates a second market for the recycled materials.

Collection Mechanism of e-waste:-

The company had planned to adopted the Buy-back Scheme

Under Buy back Scheme, in cases where the customer wants to discard their old product, they may call at the Toll Free number (**1800-102-5679**) and our representatives shall approach to the customer and buy the said discarded product from the customer and in consideration.

The Customer shall also be free to deposit the discarded product at the nearest collection point and he will get the discount voucher and shall be eligible for the discount on purchase of selected new product of the Company. The company will coordinate with other independent vendors who may sale the e-waste/EOL product collected by them.

The company will furthermore elaborate its scheme and shall keep updating the same based on the experience faced while implementing the said schemes on a quarterly basis.

Direct Collection from Customer's premises

For collection of e-waste The Company has setup toll free number where any customer may call and register itself for either depositing its old product as free of cost or otherwise under buy-back programme initiated by company. The company shall give its toll free number on their product manuals, website, social networking platforms and at its various connected premises for its customer information for disposal of their of e-waste. The customer can directly call on these numbers and the e-waste will be directly collected by the company or by its recycler partner. The company has recycler partner who has manage logistic service through TCI EXPRESS LIMITED Ltd. available at most of the locations at its collection centers.

Recycling of E-waste:

The company has tied -up with the E-Waste Recyclers India (EWRI) for collection of all our E-waste on PAN India and disposes the same at their plant at E-50, UPSIDC, Kosi Kotwan, Mathura, UP-281403 and India. Customer can reach or call on Toll Free No **1800-102-5679**. Our representatives explain them about process of disposal and make them aware about nearest drop point available to drop the e-waste also give information about incentive we will offer to them against their end of life product. If any customer wants to handover the material from their door steps, we do send either our logistics team or E-waste Solutions team to collect the items and channelize the same to our e-waste partner plant for final processing.

Do's& Don'ts**Do's:**

- Always look for information on the catalogue with your product for end-of-life equipment handling.
- Ensure that only Authorized Recyclers/Dismantler handle your electronic (i.e. LED Tv's and accessories) products
- Always call at our toll-free No's to Dispose products that have reached end-of-life
- Always drop your used electronic products, batteries or any accessories when they reach the end of their life at your nearest Authorized E-Waste Collection Points.
- Always disconnect the battery from product, and ensure any glass surface is protected against breakage.

Don'ts:

- Do not dismantle your electronic Products on your own
- Do not throw electronics in bins having "Do not Dispose" sign.
- Do not give e-waste to informal and unorganized sectors like Local Scrap Dealer/ Rag Pickers.

Do not dispose your product in garbage bins along with municipal waste that ultimately reaches landfills.

Collection Point

M/s E-waste Recycler India has signed an agreement with **TCI Express limited for reverse logistics** for Channelization of E-waste to the facility.
